NUMBER 17.

A GLOOMY OUTLOOK.

A Close Line of Investment Drawn Around Ladysmith by Boers.

This Gives a Superior Force to Oppose the Approach of Gen. Buller's Relief Expedition—Latest From Front.

London, Jan. 16.—Gen. Buller's latest authentic word as to what he and his 30,000 men are doing was wired from Springfield after his first forward step. Striving to think out the unknown, London is confused by surmise and rumor and disquieted by suspense. Spenser Wilkinson, the lucid military expert of the Morning Post, asserts that the Boer force in northern Natal is larger than Gen. Buller's and Sir George White's together, so that the Boers are able to leave a force around Ladysmith larger than that within the town, and yet to oppose Gen. Buller with a force superior to his own.

Reports from the Boer camps affirm that the circle of investment has been drawn closer by the occupation of some hills nearer the town, thus liberating re-enforcements to oppose Gen. Buller.

The yeomanry recruits are disturbed by the fact that they are able to get only one and one-half companies out of upward of 1,000 applicants in the metropolitan district. All the other applicants fall short of the requirements. One thousand would be regarded as a very small number, even were all accepted.

The provinces are doing better, although to raise 10,000 appears far from the easy matter it did a fortnight ago.

Among the minor perplexities of the war office is a strike among the military tailors, which causes delay in uniforming the recruits.

An interesting item of news is that 300 Boers, escorting a party of reapers, have successfully garnered all the crops within two miles of the colonial camp at Bird's river, the British force being too weak to interfere.

London, Jan. 16.—The Standard gives prominence to the following dispatch, dated Saturday, January 13, from Durban:

"A man who has just arrived here from Springfield says that a British column proceeding to the relief of Ladysmith, has crossed the Little Tugela. When he left it was facing the Boer position on the Big Tugela and a Howitzer was shelling the Boer trenches.

"He says also that 270 wagons laden with commissariat stores for Ladysmith had left Frere and it was expected that the column would join hands with Gen. White Monday evening. The traction engines have been doing excellent work in hauling heavy wagons out of holes and swamps. This they accomplish with the greatest ease.

"British patrols have discovered parties of Boers in the direction of Ennersdale, between Frere and Estcourt."

London, Jan. 16.—The correspondent of the Daily Telegraph at Pietermaritzburg, telegraphing Thursday, January 11, says: "The gallantry of the Ladysmith garrison last Saturday appears to have depressed if not actually demoralized the Boers generally. It is believed that they lost at least two if not three killed as against our one.

"Many Boers are believed to be trekking northward. The magistrate at Nqutu, Zululand, telegraphs that scouts report having seen many Boer families with wagons proceeding north via Zululand, while a European who formerly resided at Dundee declares that after the repulse at Ladysmith a number of Boer women loaded with dead and wounded passed through that mining township, and that the Boers burned some of the public buildings as they departed. Five days have passed since then."

Boer Headquarters, Outside Ladysmith, Jan. 9.—The Boers occupying the southern edges of Bester's Kop were driven out by the British Saturday. Commandant Nel, on the west of the town, and the Pretoria commando, on the north, have taken the kopje commanding Caesar's Camp, from which they maintain a continuous sniping of the British. The Pretoria commando lost six men killed and six wounded in attempting to storm the fort.

Cape Town, Jan. 15.—There is good reason to believe that the statement that Sir Charles Warren with 11,000 men has gone toward Weenen is correct, and we may expect important news shortly.

Reports have been received here that dysentery is very rife in Ladysmith.

London, Jan. 16.—The correspondent of the Times at Lourenço Marques, telegraphing last Saturday, says: "The Free State has now called out every available man, including the leading merchants, who had expected to enjoy immunity."

ANNUAL REPORT.

Interstate Commerce Commission Makes a Strong Plea to Congress to Uphold Their Hands.

Washington, Jan. 16.—The interstate commerce commission Monday made public its thirteenth report. The feature of the report is the strong plea made that congress uphold the hands of the commission by amendments making the interstate commerce law more effective. The report says the commission a year ago called attention to the fact that in vital respects the present law has proved defective and inadequate, and that until further legislation is provided the best efforts at regulation must be feeble and disappointing. The requests of the commission for needful amendments have been supported by petitions and memorials from agricultural, manufacturing and commercial interests throughout the year, yet, says the report, not a line of the statute has been changed and none of the burdensome conditions which call for relief has been removed or modified. The existing situation and the developments of the past year, it is added, render more imperative than ever before the necessity for speedy and suitable legislation. Nine-tenths of the people know that any railroad company can charge for its service whatever it pleases and as much as it pleases, without any other tribunal or court to limit the amount of such charge for the future when complaint is made by an aggrieved shipper, and they are substantially of one mind in desiring that this and other defects in the statute be promptly remedied. Shippers generally also have been practically unanimous in favor of a single classification of freights, one that will be uniform for all roads and all sections of the country, and reasonably stable when established.

This general public dissatisfaction has been frequently expressed in resolutions of various national organizations, and at a conference in Chicago last November, attended by representatives from a number of national associations of manufacturers, merchants and others, a bill embracing the more important amendments recommended by the commission was approved, as the measure which would best meet the requirements of business and commercial interests. This bill, Senator Cullom has introduced, and the report significantly suggests whether continued failure to perfect the regulating statute on reasonable lines will not soon result in an irrepressible demand for almost radical and drastic legislation.

Continuing it adds: "It is a matter of common knowledge that vast schemes of railway control are now in process of consummation and that the competition of rival lines is to be restrained by these combinations. While this movement has not yet found full expression in the actual consolidation of railroad corporations enough has transpired to disclose a unification of financial interests which will dominate the management and harmonize the operations of lines heretofore independent and competitive. This is to-day the most noticeable and important feature of the railway situation. If the plans already foreshadowed are brought to effective results, and others of similar scope are carried to execution, there will be a vast centralization of railroad properties, with all the power involved in such far-reaching combinations, yet uncontrolled by any public authority which can be effectively exerted. The restraints of competition upon excessive and unjust rates will in this way be avoided, and whatever evils may result will be remediless under existing laws."

The increase in railroad business the past year has been so great, the report says, that many carriers found their equipment inadequate for the service required. Revenues increased greatly, while railway failures fell off. The rush of business "contributed to the improved observance of published rates and diminished the frequency of those practices which are made criminal misdemeanors by the statute."

Reference is made to the several conferences had with high railway officials early in the year with a view to gaining from each promises to maintain their published rates and to the good effect of these conferences in checking the rate demoralization then prevailing. It is denied that the conferences sought to secure agreements to maintain rates, their only purpose being to secure good faith in observance of published tariffs.

Germany Friendly Toward Us.

Washington, Jan. 16.—According to Consul General Mason, at Berlin, much friendly feeling is developing in Germany toward the United States which gives promise of resulting in the abatement of some of the harsh restrictions upon American trade that have been the source of bitter complaint by our exporters. Mr. Mason attributes this feeling to the successful outcome of the Philadelphia commercial exposition, upon which he bases an admirable report to the state department.

THE BUBONIC PLAGUE.

Nine Cases at Honolulu, Making Twenty-Two in All—The Disease Makes Its Appearance in Brazil.

Honolulu, Jan. 8, via San Francisco, Jan. 16.—Since the 1st instant nine cases of plague have developed, making 22 cases to date. The board of health has adopted heroic measures and it is believed that the work now in progress will stamp out the scourge in a short time.

Thus far but one European has been attacked. This case was that of Ethel Johnson, a Norwegian girl, aged 14 years. The other 21 cases are divided as follows: Chinese, 13; Japanese, 2; Hawaiians, 3; South Sea Islander, 1.

The following resolution was adopted by the board of health:

"It is the sense of this meeting that it is a sound policy to remove to quarantine as rapidly as possible the residents of the Chinatown district and to take any and every step without limit necessary to stamp out the plague, including the destruction of buildings and other property."

In accordance with the foregoing, Chinatown is being rapidly burned out. Within a week a majority of the residents of the plague spot will be removed to new and cleaner quarters on the outskirts of the city. Thirty-one small buildings are being erected by the government. These structures will accommodate about 3,000 persons.

On the 3d inst. the board of health declared the entire judicial district of Honolulu under quarantine. All persons are forbidden to leave the district without permission of the board of health. All persons outside of the district are forbidden to harbor any person coming from the district without the permission of the board of health. The council of state has appropriated \$275,000 with which to fight the plague and place the city in a proper sanitary condition.

Some of the captains of the sailing vessels leaving here for the coast are relaxing from the strictness of the rule of taking no passengers from Honolulu, and there is now some chance for people to go away, if they are willing to go on sailing vessels.

The schooner Columbia, which leaves here next week, is taking passengers. She goes to Port Townsend. The bubonic plague appears to be spreading in Japan, as shown by advices up to December 30, received this morning via steamship China. At Taihoku four fresh cases and one death were reported on the 24th, and on the following day there were four deaths and two new cases. Up to the 26th there had been 15 cases at Osaka and 22 in Kobe.

Rio Janeiro, Jan. 16.—The bubonic plague is officially declared to be only sporadic in this city. Hitherto there have been 22 cases at Santos, 15 at Sao Paulo and three or four at Rio Janeiro. Energetic measures have been taken in other parts of Brazil to prevent outbreaks of the plague. At the cities mentioned the federal government has undertaken sanitary measures. All vessels are disinfected.

DEFICIENCY BILL.

An Appropriation of Over Fifty-Six Million Dollars is Asked for Immediate Use.

Washington, Jan. 16.—The urgent deficiency appropriation bill, the first of the important supply bills for the government reported to the house by Chairman Cannon, carries \$56,127,841, of which \$47,502,332 is re-appropriations for the military and naval establishments and \$8,525,509 direct appropriations.

The more important direct appropriations are: Treasury department, \$2,069,624; war department, \$199,617; naval establishment, \$2,750,000; postal service, \$290,527; Paris exposition, \$169,500; printing and binding, \$270,000; judgments Indian depredation claims, \$242,112; judgment, court of claims, \$2,123,925.

For transporting Spaniards home from the Philippines \$750,000 is appropriated.

Motive for the Crime.

New York, Jan. 16.—In the trial of Roland B. Molineux for the murder of Mrs. Katherine J. Adams, the prosecution introduced testimony to show a motive for the poisoning of Henry C. Barnett by Molineux. While Molineux is not on trial for the murder of Barnett, it is exceedingly important for the prosecution to connect Molineux with Barnett's death, as showing Molineux's character, his letter-writing habits, his alleged use of cyanide of mercury to kill those whom he hated. The testimony reflected severely on the good name of Mrs. Molineux, but her husband listened unmoved.

Not Lyman J. Gage's Cousin.

Toledo, Jan. 16.—Lyman J. Gage, secretary of the treasury, has sent \$10 to help defray the funeral expenses of Weaden W. Gage, who died here penitently last week, and who claimed to be a first cousin of the cabinet officer. Correspondence revealed that the claimed relationship did not exist, but Secretary Gage sent a contribution, "on account of the similarity of names."

FIFTY-SIXTH CONGRESS.

First Session.

Washington, Jan. 9.—Senate.—The senate discussed, without action, the United States toward the Philippines. The race problem was then discussed on the Pritchard resolution, introduced to prevent a repetition of the Hayes-Tilden controversy. Among bills introduced were granting travel pay and commutation rations to volunteer soldiers who served in the Philippines, and were transported to the United States before being mustered out by the government, just as if they had been mustered out in the archipelago; for the retirement of officers of the army who served in the civil war at one grade higher in rank than that actually held, provided they be retired for disability; to establish postal savings departments; increasing the duty on imports brought into the United States from contiguous countries in other than American ships.

House.—The house ordered two investigations. One was that an inquiry should be made into the appointment by the president of Postmaster John C. Graham, of Provo City, Utah, and Postmaster Orson Smith, of Logan, Utah, who are under indictment as polygamists. The other is a general investigation into the conduct of Merriam and the United States army officers during the Wardner (Idaho) riots and subsequent thereto. Bills were introduced to give honoraria to officers who served in the Spanish war credit for the time of their service; to reorganize the revenue cutter service. This bill provides for the rank pay and retirement of officers in the service, and is similar to the bill which has several times passed the senate. The house adjourned until Wednesday.

Washington, Jan. 10.—Senate.—Nearly all the time of the senate was taken up by Senator Beveridge in an address which favored the retention of the Philippine islands by the United States government. He was replied to by Senator Hear.

House.—Not in session. Washington, Jan. 10.—Senate.—Mr. Hale introduced a resolution of inquiry addressed to the department of state as to the seizure of American boys by British authorities. Beautiful and impressive tributes were then paid by the senate to the memory of the late Vice President Hobart.

House.—Miscellaneous business of minor importance occupied the attention of the house until 1 o'clock, after which an hour was devoted to eulogies upon the life and public services of the late Representative Greene, of Nebraska. Then the house adjourned until Friday.

Washington, Jan. 11.—Senate.—The Philippine policy was discussed by several senators. Mr. Pettigrew bitterly attacking the administration. The currency bill was further considered. Two bills were passed, one conferring additional powers upon the director of the census and the other increasing the limit of the cost of the public building to \$2,500,000. Adjourned to Monday.

House.—Not in session.

Washington, Jan. 12.—Senate.—Not in session. House.—Mr. Catchings (Miss.) was sworn in as a member. He has been detained at home since congress convened. The speaker before the house the resignation of John Walter Smith, governor of Maryland. Mr. Sulzer (N. Y.) then presented for immediate consideration a resolution for the appointment of a special committee of nine members to investigate the relations of the secretary of the treasury with certain New York national banks, and the transactions relative to the sale of the New York custom house. Objections were made, and it went over. The house adjourned until Monday.

Washington, Jan. 15.—Senate.—Senator Mendenhall introduced a joint resolution extending the thanks of congress to Rear Adms. Sampson and Schley. It was referred to naval affairs committee. The Pettigrew resolution relating to the beginning of the Philippine insurrection was taken up and discussed. Resolutions were adopted calling on the secretary of the navy to send to the senate the number of vessels in course of construction, the number of men required to man them and the number of men in the navy and the number of officers and men on each vessel.

House.—June W. Gayle, of Kentucky, who was elected to succeed the late Evan Sells, was sworn in. Mr. Cannon reported the urgency deficiency bill which went over. A resolution was adopted calling upon the secretary of state for information relative to the agreement between the United States and Great Britain which prevented the United States from building or maintaining a vessel more than one war vessel upon the Great Lakes. The rest of the day was devoted to District of Columbia business.

WEDDING GUESTS POISONED.

Nearly a Hundred People Made Sick by Partaking of a Wedding Feast in Chicago.

Chicago, Jan. 16.—Nearly a hundred guests, who assembled at 369 Canal street to witness the wedding of Morris Pollack and Annie Schan, were poisoned during the dinner which followed the wedding ceremony. In less than half an hour after dinner nearly every one in the hall was in a helpless condition. What article of food contained the poison no one has yet been able to learn, but the most popular belief is that it was the chicken which had been prepared in a copper kettle.

So far no deaths have been reported, but many are seriously ill, including the bride and groom.

Assaulted on the Stock Exchange.

London, Jan. 16.—A disgraceful scene occurred on the stock exchange. When Maurice Herzfelder, of the big stock broking firm of Kahn & Herzfelder, doing considerable New York business, appeared on the exchange, he was mobbed, knocked down and kicked because, as alleged, he had refused to keep open the place of a clerk employed by him who had volunteered for service in South Africa. Mr. Herzfelder was so severely ill used that he fainted, and when he recovered he was again maltreated. Finally he was rescued from his assailants.

Two Transports Arrive.

San Francisco, Jan. 16.—Two United States transports, the Olympia and the Pennsylvania, arrived from Manila, the former 31 days on the journey and the latter 28. Both vessels brought a number of passengers. On board the Olympia was Col. C. D. Vile, of the 4th Cavalry, who is to be made brigadier general. Col. Vile was forced to return to this country owing to ill health. A number of men from United States warships returned on the Olympia.

AGAIN.

In our last week's issue on the Corporation, we meant not to say a word against our town or its good citizens. No one would be farther from it than we. We expressed that love that a parent has for a child, and mildly rebuked a certain prevalent spirit throughout our town and community. We are here to fight for the very best interest of our county and towns therein. We have closely watched men in their upward and downward courses. We have seen towns flourish as the bay tree and others wither as the grass under the blistering rays of the scorching summer sun. We spoke what we thought, experience has taught us and realizing that the great majority of our people want to improve morally, intellectually and financially we deemed it proper and right to up-hold and maintain as far as we could, the town corporation. As an editor, and interested in the building up instead of tearing down, we shall always speak plainly but without a desire to wound any one's feelings; without malice; without envy. Our rule will be to tell the truth and shame the devil. The corporation is not dead but has been snoozing in the dreamy land of Nod. The people should stand by the Marshal. The Marshal should do his duty by arresting every man that violates any ordinance, whether white or black, rich or poor, big or little, large or small, regardless of race or previous condition of servitude. It takes active, and courageous men to be successful custodians of a town. Instead of forcing our citizens to pay a municipal tax and work upon the streets six or eight days, simply levy a reasonable road tax—say of ten cents on each hundred dollars worth of taxable property and employ laborers who will do good, honest work, and we will in a few years macadamize every street we have. As it is, the citizens must pay from \$5 to \$8 for road working each year, when little good is accomplished, when under the system of taxation, the citizen who had \$2,500 of taxable property would pay only \$2.50, which would furnish the town more work than \$5 paid as it is now. The Board should never make any order unless it is wise and best, then enforce the order regardless of whom it effects. It is not right to force Tom Proctor to put down a side-walk and not treat the Welsh heirs likewise. It is not right to compel Mrs. May Seeley to put down brick and permit Mrs. Baker to keep the slick rock front, the same kind as Mrs. Seeley had down. We simply call attention to these things because the law should fall alike on all. Wake up, gentlemen! Give us a good, active Marshal. Let the Trustees and Police Judge arouse themselves to a realization of the true situation. Let the people hold up the officers and stand by them in the discharge of their duty and we will soon be in the vanguard of a triumphant march.

THE Louisville bar, or the best element of it, has taken a step to raise the standard of admission to the bar. This is certainly a step in the right direction to stop shysterism. For years it has been that men of no moral courage or legal learning, could be admitted. The medical profession has made rapid stride in this regard and there is no reason why the legal should not do it.

The Court of Appeals on last Tuesday decided that Gov. Taylor did not have authority to appoint Messrs. Mackay and Cockran as Election Commissioners to fill the vacancies caused by the resignation of Judges Pryor and Captain Ellis. The injunction was therefore reinstated, restraining Appellate Clerk Shackelford, from swearing them in and restraining Taylor's appointees from acting as such officers.

THE Republican leaders must have forgotten what unpleasant results happened to Mr. Harrison's administration in consequence of the Homestead out-break, or how badly Mr. Cleveland's reputation among the great masses suffered on account of the calling out of Federal troops in Chicago.

MAJ. McKINLEY will have nothing to do with Kentucky's fight. It is not his fight. He has neither right nor authority to effect it with troops, and no one knows it better than the President.

Well-posted men say the 1900 wheat crop will be something immense, and that the outlook for good prices are gloomy. Hood Worthington has received a letter from his brother, Jas. POSSUM HOLLER.

[Level Green.]

Dear Editor:

I am still on praying grounds and pleading terms with the Higher Powers, for which blessing I am truly thankful.

School opened here last week with an attendance of 35 pupils for a beginning, with many more expected soon.

Tommy Thum Brown has been confined to his bed for a week from what nearly approaches pneumonia.

Bad colds and some threats are very common.

Master Jack Sutton, preparatory to house keeping, procured last Thursday, a first-class Baker—a regular Lula.

Everything seems to be moving smoothly at Frankfort, and the Democrats are behaving like little men, and getting right down to solid business. They have many jobs on hands, one of them rather extra ordinary—yes a Whallin or Wholopin big one.

I am a little sorry for old Four cause he's sich a damfule az to let them thar fellers make a cat ov

him, so now halt and take a lesson in the school of experience where many other fellers have been educated before.

My ole woman, Betsy, sez Buck, sez she, "what does testin, protestin or attestin the election mean?" Sez I, "Betsy, these things is men's business and too hard and deep fur short sited wimmen to comprehend, and they air political questions too and it iz not loffel fur wimmen to dabbel in Pollytix."

But, sez I, "as we have been trottin in the same harness, (not political) so long, upon your promise not to tell Uncle Bill or Dr. Price, I'll tell you." "Betsy quickly and willingly agreed to my requests, and I proceeded. 'It means that candidates who failed to get offices want them still, and generally succeed in takin them from those who seem to have them.' "Thus we see the scripture fulfilled, 'Unto him that hath it shall be given, and him that hath not, that shall be taken from him which he seem to hav.'" Betsy sed I ort to be ashamed to mix up the Bible with Pollytix and try to count Goebel in, in that way, and I dunno if it be rite or not. It does make a heap of difference as to whose steer has been hooked, don't it?

In 1876 when the Republicans were goring our big ox to death we squirmed and wiggled and protested, but it dun no good for the gorin just went rite or till they took what we seemed to have and added to what they had—see? And we didn't fite about it neither, did we? We won't have no war this time nuther—no indeed.

The whole thing is virtually settled now, except a little surplus gas that must be blode off and then all will be calm and serene. Again, as B'll Arp expresses it. I larnt last nite that Joe Blackburn is slected to the Sinate agin. Hurray for Joe, aint he a wheel boss and a boss at the wheel? Hoping that all will be weli in due time, I am yours very peacefully,
BUCK VERNON.

The Over Zealous Bellboy Gets a Suitable Reward for His Check.

A well-known drug drummer, who is paying his regular holiday visit to New Orleans, took the train last Monday evening for a little side trip to Baton Rouge and in the hurry of his departure left a handsome bone-handled umbrella hanging on a hook in the lobby of the hotel. It was a tempting prize, but probably every kleptomaniac who saw it supposed the owner was seated near at hand. At any rate it remained undisturbed and was still there yesterday when the drummer returned. "By the way," he remarked, after he exchanged greetings with the clerk, "I've managed somehow to lose my new bone-handled umbrella. Have any of you seen such a thing lying around the office?"

A quick-witted bellboy heard the question and, glancing around, saw the missing article hanging within a foot of his head. Supposing it had been there for only a few moments, he promptly grasped the ferrule. "Is this the one?" he inquired. "Yes!" exclaimed the traveler, delighted, "and I must say I'm surprised nobody has nipped it!" "Aw, they couldn't do that," replied the bellboy. "I've been holdin' on to it fer 'ever since y' hung it up." The drug drummer stopped with his hand half way down his pocket and a whimsical smile overspread his countenance. "Well," he said, slowly, "I was intending to give you half a dollar, but if you've been holding on to that umbrella for three consecutive days you're more in need of a tonic. Here is a capsule of quinine and iron." The drug drummer settled down upon the bell boy's bench might have been with an ax—N. O. Times-Democrat.

Near unto Greatness.

A Louisville woman who spent the summer at a famous mountain resort in Virginia declares that, like all other places of the kind, it has its star boarder. This one was a young southern girl. She was not pretty, yet far from being homely; there was no special style about her, and she was as heavy on hand as a log, and, last of all, she was not particularly rich. But she lorded it over the place, and all the other boarders walked behind like the sister of "Dodo." The Louisville woman lost sleep—trying to find the key to this social mystery. One day she chattered with the female potentate. They talked on and on until finally the subject turned on the Davis family. "Did you know any of them?" she asked.

"No," replied the girl who walked before, grandly, "but I just missed traveling on the train once with Winnie Davis."

And then the other woman from the south gazed reverently at the "just missed," and the Louisville lady exclaimed, softly: "Eureka!"—Louisville Times.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Cat-arrh Cure. Send for circulars, free.

Contests for Governor and Lieutenant Governor Being Tried by Legislative Committees.

Frankfort, Ky., Jan. 16.—The hearing of the evidence in the contests for governor and lieutenant governor has begun. The committee in the governorship case is composed of Senators Frazer, Crenshaw and Allen, and Representatives Hickman, Barton, Finn, Sledge, Lyon, Berry and Renick, democrats, and Yarberry, republican.

The committee in the case of the lieutenant governor is composed of Senators Coleman, Harrell and Watson, and Representatives Crawford, Alexander, Baird, Bell, Holland and Sharp, democrats, and Representatives Read and Lilly, republicans.

Representative Hickman is chairman of the committee trying the governorship case, and Senator Coleman is chairman of the lieutenant governor's.

Frankfort, Ky., Jan. 16.—The gubernatorial contest board, after listening to hours of argument by the attorney on motions and objections, finally reached the stage of examining witnesses.

Charles P. Weaver, mayor of Louisville, was the first witness called. After the examination had proceeded at considerable length Mr. Phelps, of the Goebel side, asked the question, "Did the state of facts existing at Louisville on or before November 7 with reference as to peace and good order justify calling out troops on election day?" Mr. Weaver said that owing to incendiary speeches and publications in the newspapers there was a feeling of unrest but not such, he thought, as required the military; the local authorities he regarded as amply equal to the occasion. He detailed the steps which he as mayor had taken to preserve order, mentioning the appointment of special police, etc.

H. P. McDonald, of Louisville, was the second witness.

He testified as to the entry of anti-Goebel inspectors inside the polling booths by a mandatory order from Judge Toney to the other election officers and also that republican election officers threatened him with arrest by federal marshals for challenging Negro votes. He served as a democratic election officer. The falling off in the democratic vote in his precinct he attributed to threats and intimidation. The board then adjourned.

J. Wadsworth, Maysville; Wilbur F. Browder, Russellville. He also asks confirmation of several of Governor Bradley's appointments, including the present state board of equalization, commissioners of the school of reform, trustees for the insane asylums and schools for deaf mutes and commissioners of the state normal school for colored persons.

Released With a Provost.

Louisville, Ky., Jan. 16.—J. C. Brooks and H. H. Henderson, who were arrested under the names of Brown and Johnson for complicity in the alleged insurance swindle perpetrated by W. W. Thomas, of Cincinnati, were released on the understanding that they are to go to Cincinnati and testify against Thomas. Their depositions have been taken here. After a rigid examination they admitted that Thomas had given them goods to bring to Louisville and dispose of.

Hopkinsville, Ky., Jan. 16.—The stable belonging to the Bethel Female college was destroyed by fire, with all its contents. This is the third stable burned in the vicinity of the college in the past two weeks. The police state that the public will shortly be given developments in regard to these fires. They are said to be the work of an incendiary, and he is a youth who indulges in burning stables "just for fun" or pastime.

Two Indictments Returned.

Frankfort, Ky., Jan. 16.—The Franklin county grand jury returned indictments against John H. Whallen and Charles H. Ryan, charging them with unlawfully conspiring to bribe a member of the general assembly, to wit, Senator S. B. Harrel. New Cable Lines.

France is absolutely dependent upon England for news of the Transvaal war, because the cables are under her control, and she is ready to spend a vast sum of money to free herself. This is like many people, who, after allowing dyspepsia to settle upon them, spend a fortune seeking deliverance. Save your money and try Hostetter's Stomach Bitters, the medicine which never fails to cure dyspepsia, constipation, biliousness, malaria, fever and ague.

A Suspicious American Tourist.

The American tourist is so firmly convinced that he is being cheated on all hands during his European travels that he occasionally oversteps the bounds of prudence. "What is the price of this pin?" asked a young man in a Paris shop, handling a small silver brooch of exquisite workmanship. "Twenty francs, monsieur," said the clerk. "That's altogether too much," said the young American. "It's for a present to my sister. I'll give you five francs for it." "Then it would be I zat gave ze present to your sister," said the Frenchman, with a deprecatory shrug, "and I do not know ze young mademoiselle."—Chicago Chronicle.

Cow in a Golf Match.

Ed Tufts, of Los Angeles, was playing golf with a friend recently. When he drove from the third teeing ground, he sliced the ball badly and sent it away to one side. It stopped in front of a grazing cow, and Tufts came up just in time to see it disappear into the bovine mouth. When his opponent made his stroke, Tufts untethered the cow, and, with many sounding thumps of his club, drove the beast to the third hole. There he made her disgorge the ball, and, neatly holing it, announced that he had made the hole in two strokes. His opponent calmly finished the hole in seven, and protested Tufts, gleefully. "No, you didn't," declared the other; "you made it in 39. You hit that cow 37 times, for I counted every stroke," and Tufts conceded the hole.—San Francisco Argonaut.

Millions of Women Use Cuticura Soap

Exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and healing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes, for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated or toilet soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz., TWENTY-FIVE CENTS, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world.

All that has been said of Cuticura Soap may be said with even greater emphasis of CUTICURA OINTMENT, the most delicate and yet most effective of emollients, and greatest of skin cures. Its use in connection with Cuticura Soap (as per directions around each package), in the "ONE NIGHT CURE FOR SORE HANDS," in the "INSTANT RELIEF TREATMENT FOR DISFIGURING ITCHINGS AND IRRITATIONS," and in "A SHAMPOO FOR FALLING HAIR, AND ITCHING, SCALY SCALPS," and in many uses too numerous to mention, is sufficient to prove its superiority over all other preparations for the skin.

Cuticura Complete External and Internal Treatment for Every Humor.

Consisting of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA OINTMENT (30c.), to instantly allay itching, and irritation, and soothe and heal, and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood.
